INTRODUCING KARLOVY VARY

WELCOME TO KARLOVY VARY!

Karlovy Vary lies in West Bohemia at the confluence of the Teplá River and the Ohře River, about 120 km west of Prague. It is the largest and best-known spa city in the Czech Republic.

Charles IV founded the city in the 14th century. According to the legend, the Emperor had the city built soon after the accidental discovery of thermal springs by his hunting retinue. The spa facilities enjoyed the favour of many aristocratic houses and rich burghers as early as the 16th century. Owing to a series of natural disasters, only a few buildings have been preserved from that period. Most architectonic monuments originated in the 18th and the 19th century when the city experiences a „period of abundance“.

Journey to the spa ...

Balneotherapy has been developed and improved since the very establishment of Karlovy Vary to this date. It mainly promotes the recuperation of patients suffering from digestive disorders, metabolic disorders, diabetes, gout, obesity, periodontitis (gingivitis), locomotive system disorders, liver diseases, and diseases of the pancreas, the gallbladder and bile ducts, states after oncological and neurological diseases.

The balneotherapy provided in Karlovy Vary comprises a number of curative procedures. Time-proven spa baths and drinking cure as well as modern methods cryotherapy, floating, laser therapy, etc. are used in treatment.

Both traditional spa treatment and wellness you can savour in Carlsbad sanatoriums, spa hotels and public spas.

The spa treatment provided in Karlovy Vary consists of special procedures based mainly on the use of mineral springs. To achieve desired results, spa treatment must take at least three weeks. After arriving at a spa facility, a client consults one of the spa physicians who perform an initial medical examination and prescribe the most appropriate treatment procedures. The daily schedule of massages, curative baths and drinking cure has to be strictly observed. The effects of the treatment will soon set in. For instance a bubble bath, a carbonic bath, a dry carbonic bath, a peat (mud) bath, a mineral bath, whirlpool, additive baths, warm and cold water jets, a sauna, a steam bath, a classical massage, lymph drainage (manual or instrumental), a reflex massage, a water massage (hydropuncture), laser therapy, paraffin and peat packs, therapeutic physical

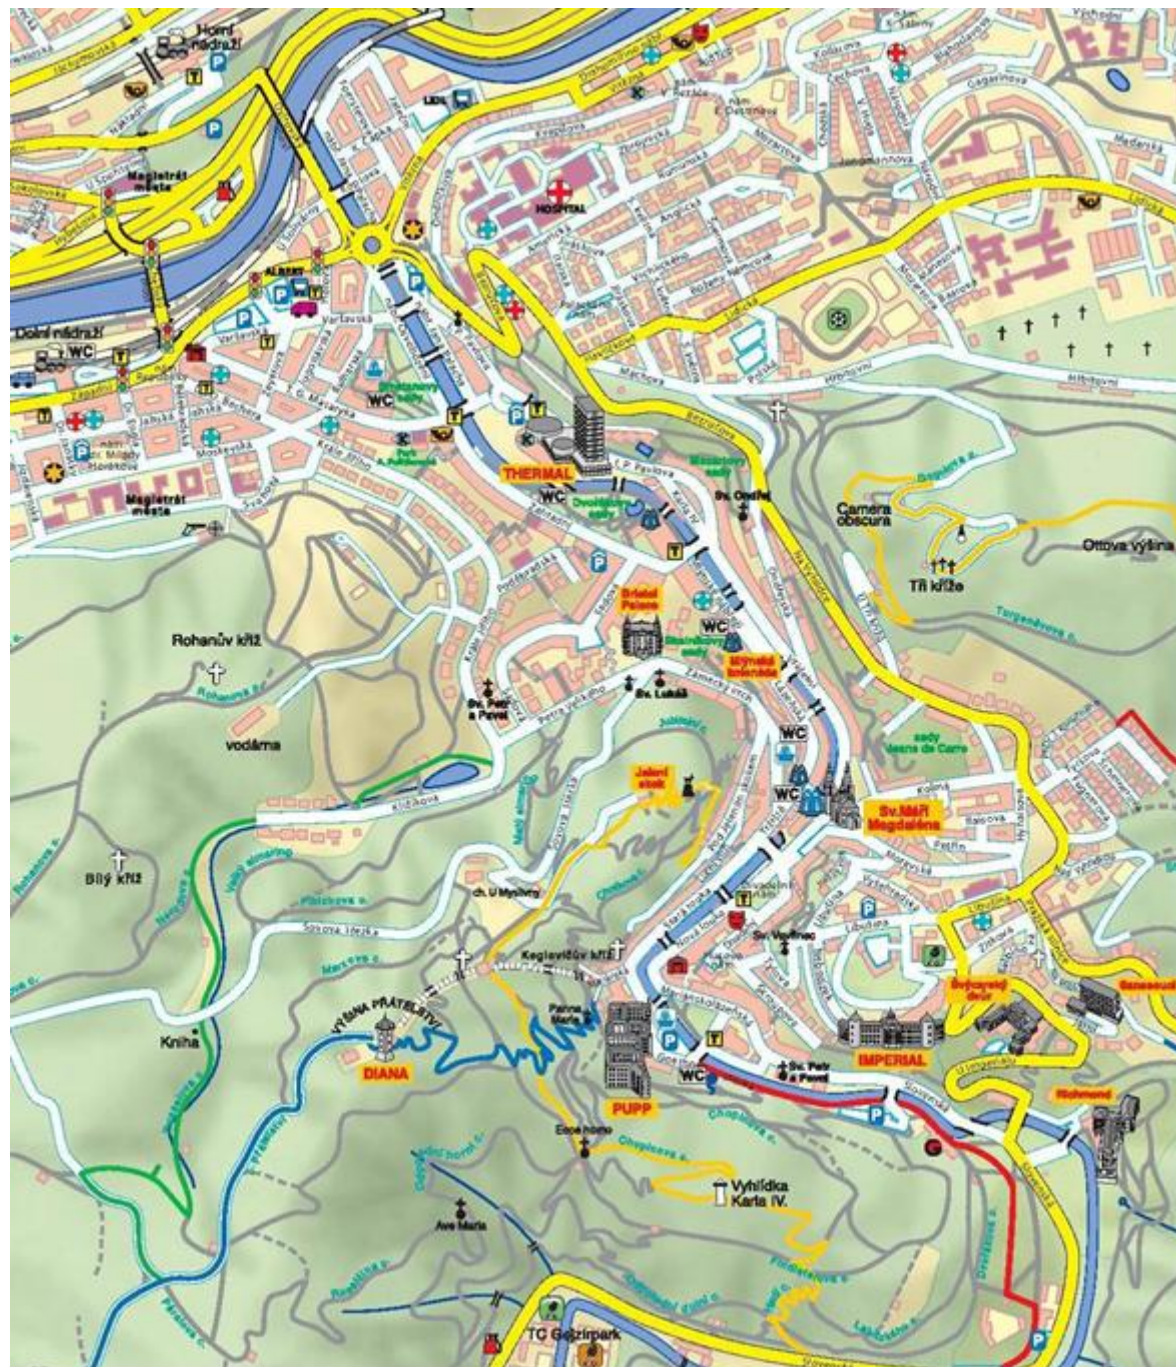

exercise (individual or group), water gymnastics, cryotherapy, gas injections (pneumo puncture), oxygen therapy, inhalation, floating, enema rank among procedures, which are commonplace in most of the spa houses.

LEISURE ACTIVITIES

Karlovy Vary will surprise you with a wide range of leisure activities. You cannot be bored here ...

The spa region with more than a hundred of kilometres of marked spa walks suitable for tourists as well as for cyclists will lead you to the newly opened St Linhart Rope Centre. For cyclist, there is available a network of cycle paths in Karlovy Vary. Principal one leads along the Ohře River. Cyclobuses and cyclotrains will transport you from Karlovy Vary to your starting point. Visit one of the information centres where you will be provided with tourist guides of spa forests and surroundings or a few variants cycling maps.

In case you cannot imagine a holiday without active recreation and spa walks are not sufficient, make use of one of many sports venues. Sports, especially golf and tennis, have a long tradition in the Karlovy Vary Region.

Karlovy Vary is often visited by golf groupies. There are at least five high-quality golf courses near Karlovy Vary, one of which is in the town centre. Eighteen hole golf course from 1933, which is close to Olšová Vrata, ranks among the best known (also among the oldest not only in the Czech republic, but also in central Europe).

If you like water, the Ohře River is navigable from Cheb to Litoměřice It's passable from Karlovy Vary almost all year long. The Ohře River flows through beautiful natural scenery and historical places there. If you prefer a swimming pool, there are a newly opened swimming pool complex near KV Arena incl. a whirlpool, a paddling pool, a sauna and a water slide, an open-air swimming pool by the Thermal hotel and an indoor pool in the Elizabeth's spa at your

disposal. For recreational and relaxation purposes make use of a leisure time centre Rolava, which offers activities for the whole family. For inline skating fans, there is available the Meander Ohře, where there is a playground in addition to the in-line skating trail.

A town with regulated traffic regime - **the spa area is a zone with a strict regime of traffic** and very limited parking possibilities, which is marked with No entry with the additional sign that reads "MIMO VOZIDEL S POVOLENÍM A PO ZAPLACENÍ POPLATKU NA MĚSTSKÉ POLICII"

Czech Republic

The Czech Republic is a parliamentary republic and a member of the European Union. It is situated in central Europe. Its capital is Prague. It borders on Germany, Poland, Slovakia and Austria.

Czech is an official language.

The Czech Republic has its own currency - the Czech crown - most of the shops therefore do not accept a payment in another currency. For that reason, we would recommend to exchange at least a minimum amount of

money (for refreshments, toilets, admissions to galleries, castles and chateaux). For **exchange, banks** are the most suitable because they charge a minimal fee. You can also exchange your money in the exchange bureau

of the information centre where there are no additional fees for foreign exchange.

Important rivers of the Czech Republic are as follows: the Labe River (370 km) and the Vltava River (433 km) in Bohemia, the Morava River (246 km) and the Dyje River (306 km) in Moravia and the Odra River (135 km) and the Opava River (131 km) in Silesia.

Currency of the Czech Republic - Czech crown (Koruna česká), 1 Kč (Koruna česká) = 100 halers, 1 € is around 25 Kč

International dialling code of the Czech Republic - +420

Religion - most of the population (59 %) is atheistic, the largest denomination is the Roman Catholic Church (26, 8 %), followed by the Evangelical Church of Czech Brethren (1,15 %) and the Czechoslovak Hussite Church (0,97 %).
